

Dear Parents,

As you all know, our students have been working very hard raising money for their scholarship student Mercy, in Kenya, Africa to go to school. The students have decided that they would like to reach out to their community to help raise money and awareness for Mercy. They are going to do this by writing letters to local businesses explaining what they are learning in school and how they have had the chance to help change the world through being a responsible global citizen.

In order for our students to achieve their goal of writing to companies, we need your help! Will you **please send 1-5 addresses** of companies you are affiliated with or family members you believe would like to learn about how your child is making a difference in this world. We will need the addresses returned by _____ so our students can send out their letters.

We are also requesting donations of stationary items like decorated lined paper and stickers to assist in this process. If you able to make this donation, please send in all items by _____.

Thank you very much for your help!
